

SAFE Will:

Help older adults recover financially and emotionally after being victimized by financial scams or identity theft.

Educate older adults, and the people who care for them, about scamming and identity theft techniques, identification, protection and reporting.

Offer one-on-one support and education to caregivers on financial management issues.

For more information please contact SAFE program director LaToya Hall at l.hall@wayne.edu or 313-664-2608

SAFE was created by Dr. Peter Lichtenberg, director of the Institute of Gerontology at Wayne State University and one of the country's foremost researchers in safe-guarding older adults from financial exploitation. SAFE connects with older adults and caregivers directly to build financial skills to prevent scams, and also assistance when recovering from a scam.

This program includes research into how older adults make financial decisions, as well as Dr. Lichtenberg's screening tools (OlderAultNestEgg.com) to help professionals assess clients ability to make informed financial decisions.
