# 2015 CONFERENCE BENEFITS

Broaden and update geriatric/gerontology knowledge and skills

Obtain expert advice from knowledgeable professionals

Learn about each topic from the perspective of multiple disciplines

Network with committed professionals from around the state and region

Receive a bound set of materials for the 2-day program

## LOCATION:

Dearborn Inn  
Conference Center  
20301 Oakwood Blvd  
Dearborn, MI 48124  
313-271-3899

The Dearborn Inn is handicapped accessible, in compliance with all federal, state and local standards.

## PURPOSE AND WHO SHOULD ATTEND:

The continuing education program of Issues in Aging provides multi-disciplinary education and training in geriatrics and gerontology for health and human service professionals, paying special attention to the needs of a diverse aging population.

## OBJECTIVES:

### MONDAY, MAY 11

#### ***Alzheimer's and Dementia: Progressive Interventions***

- Describe 5 preserved abilities that can serve as the basis for interventions in dementia.
- Demonstrate at least 3 general Montessori-based interventions for residents/care receivers.
- Discuss at least 3 interventions for specific clients/residents in their care.
- Recognize the presenting motor and non-motor symptoms of Parkinson's disease.
- Explain the diagnostic criteria of Parkinson's disease.
- Describe key characteristics of early, middle and late stage Parkinson's.
- Describe the challenges to effective rehabilitation services for individuals with cognitive impairment.
- Identify the underlying dementia care best practices utilized in the NET model.
- Discuss the implications of enhancing engagement in rehabilitation therapy.
- Identify the issues that caregivers face as they support those living with dementia.
- Discuss challenges to open dialogues around the topic of dementia in the African American community and the role of the church.
- Define the dementia care model that focuses on the spiritual components of care.
- Identify strategies for caregivers to not "become the second silent patient".
- Apply a systematic approach to determine the cause of challenging behaviors in persons with dementia.
- Describe common physical causes of problematic behaviors in dementia.
- Demonstrate use of activity as optimal stimulation and intervention for persons with dementia.
- Describe environmental changes as an intervention for persons with dementia.
- Describe how new learning in persons with dementia can be initiated as intervention.

### TUESDAY, MAY 12

#### ***A Team Approach in Frailty Care for the Mental and Physical Wellbeing of Older Adults***

- Differentiate between dementia and Alzheimer's Disease (AD).
- Identify risk factors for AD.
- Differentiate between early and late onset AD.
- Discuss the implications of AD genetics for risk assessment and clarification.
- Identify current psychiatric and health assessment/treatment problems and care models of older adults.
- Describe the Watch-and-Wait Model.
- Describe and outline 5 core domains of care of older adults.
- Examine profiles of cases of older adults.
- Identify risks for hospitalized older adults.
- Define the key components of the ACE model of care.
- Describe the successes and struggles with implementation of an ACE program and unit .
- Describe the role of a mobile/ virtual ACE team within a hospital based ACE program.
- Define clinical frailty.
- Identify a group of older persons in their clinical practice who meet criteria for clinical frailty.
- List outcomes that have been associated with clinical frailty.
- Identify strategies for the management of the frail cognitively impaired older adult, and the cognitively intact, but physically frail older adult.
- Recognize the impact of chronic illness on the 60+ population.
- Describe the cost of chronic illness in terms of the physical, emotional, social and financial burden.
- Identify self-management programs and how they can affect quality of life.
- Describe process of integrated and coordinated referral, delivery and evaluation system that supports prevention and self-management programs.
